

What is legacy?

The Golden and Golden Gate Foundation's mission is to honor young women who want to serve the community, become leaders and strive to be an example through exemplary acts of achievements whether through athletics, academics, civic engagement or displays of keen moral judgment.

This foundation was created to honor a dynamic legacy of love, leadership and service in a local and impactful way.

Please appreciate this package as an invitation to be a part of an incredible be-ginning on a journey of accomplishments.

We are seeking partnerships with other civic minded and community oriented programs, organizations and foundations as it truly adapts the "It takes a village mantra"

Through evidenced based programming and culturally sensitive and aware assessments, we know progress is possible. As my grandmother stated on the night she won the highly sought after and contested seat for Mayor of Daytona after learning of her historic win "We kicked butt" A little lesson in humility but this has become the battle cry of our *legacy*.
